

Project - Business needs

06 August 2024 10:17

Using the "Weekly data on the Bank of England's balance sheet from 1844 to 2006" dataset, I will address various business needs. This dataset contains historical financial data that can be leveraged for different analytical purposes. Here are five business needs that could be addressed using BoE dataset:

Interest Rate Prediction for Loan Products

1. historical trends in interest rates
2. major interest rate shifts
3. causes of identified interest rate shifts
4. post-war interest rate trends
5. Compare with Interest rates with G7 Countries
